Long Crichel Bakery Tea Room Menu

Long Crichel Bakery started producing organic breads, cakes & patisserie in 2000. We use time honoured artisanal bread making techniques with the best ingredients available in the West Country.

Our breads are in the English and French tradition and most are made with a natural leaven of wild yeasts. We knead and shape our dough by hand, and leave the loaves to develop slowly in linen cloths. The bread is then baked in a solid brick oven fired by wood from nearby forests – a sustainable source of energy. The bread is crusty, moist and chewy, a superb transformation of the simplest ingredients. This method allows the true flavours of bread to develop, and creates a deliciously healthy loaf.
